Don Carter, Urban Design Associates Co-owner – *The Pennsylvanian*

Promoting sustainable design and a healthy lifestyle – that's the motto that describes Don's work for the Urban Design Associates and a mantra for his daily life as a Downtown resident. Whether biking around town or on the riverfront trails, taking a run through the Strip with his wife or enjoying a meal al fresco in the Cultural District, this adventuring architect is passionate about living simply in the city. Even though he traverses the globe for his career, this lifetime resident always feels welcomed home by a Downtown that "gets better every year."
