

Pittsburgh WiFi Fact Sheet

WiFi Downtown Pittsburgh

- Launch of *WiFi Downtown Pittsburgh* installation is the result of collaboration between the Pittsburgh Downtown Partnership (PDP), the foundation community and City of Pittsburgh.
- Installation of the Downtown wireless network, which will be powered by US Wireless Online (USWO), was officially launched on September 13, 2006.
- *WiFi Downtown Pittsburgh* will provide wireless access to the Central Business District/Golden Triangle, North Shore and Lower Hill District at various service tiers including **free** access for up to two hours each day and additional usage at a higher bandwidth which can be purchased at a daily, monthly or yearly rate from USWO.
- *WiFi Downtown Pittsburgh* will provide municipal benefits, including four secured mobile command units for City of Pittsburgh public safety use.
- *WiFi Downtown Pittsburgh* will provide complimentary connections in partnership with Wireless Neighborhoods, an alliance of community and faith organizations committed to support children's education, promote economic development and address other social barriers.
